Column Volume 66 A Fresh Start -Creating a Better Life

It always seems a bit risky to title an article, creating a better life, but honestly, that's all I could think of as this next topic came to fruition. As some of you know, we host classes and seminars on various topics. One of our main topics is weight loss. And I guess it's the time of year to talk about this again – as the New Year's Resolutions abound.

Many of our clients have lost weight, gotten healthier and only check with us on occasion for maintenance. God bless them, they are doing everything right and it is making a difference in their lives.

How do we do this? We begin by balancing blood sugar and adding a super nutrient. The client can then experience what it “feels like” to be in a body that is functioning with energy, high metabolism and efficiency. Many of us have long forgotten what it's like to have boundless childlike energy and to be “awake” in our bodies. Unfortunately, we know the feeling of having to drag it around kicking and screaming. At Natural Healing Express, we help folks to awaken, in a kind manner.

We pair this “awakening” with knowledge and samplings of the Eat Clean Diet by Tosca Reno. This has been taught by our dear and awesome Lisa Hanson of Clean Cuisine. Nutrient dense food gives the body what it is truly asking for – NUTRIENTS. By eating nutrient dense food, the cravings fall away. Lisa does an amazing job making sure it tastes wonderful, with portion control.

We discuss the psychology of losing weight. This is where the rubber hits the road. We discuss emotional eating, how stress affects weight, how emotions affect the body, and we understand the female maturity process. We strive every day to give folks old fashioned encouragement. We let our clients know that they DO NOT HAVE TO STAY STUCK! Everyone can change their circumstances if desired. And we provide individual/group support where applicable.

We encourage body MOVEMENT. Fitness, any kind of fitness/activity/action is helpful. Your body is meant to move. Only in America have we termed ourselves couch potatoes, labeling the vegetative state in front of our tv. We ask clients to come up with their own fitness plan, learn their bio-individuality and use supplements as needed to help bring the body back in balance.

With this process success can and does happen, with long term results. And congratulations to those who have worked this process, it sure as hell wasn't easy, but you've done it.

So what about when doesn't happen? What about a long term disconnect? In our focus group, we have learned obstacles showed up as the following – we run out of time, we are the one and only person in our family/group that is thinking/wanting to be healthy and active, we have done everything right and discovered an emotional issue that is blocking progress, we are occasionally lazy and need to be held accountable, we need concrete measurements, we are re-inventing ourselves and need to set the bar higher, we are too hard/critical with ourselves, we have lost motivation.

With all that said it is time to re-evaluate your process. It is time to start creating a better life for yourself. This is the time of year for a “fresh start”. So, first and foremost, if you are on this path and you truly want to make 2013 your best year yet, then let’s do it.

We begin by figuring out the one thing holding you back, your proverbial “weak shot”, and bring it up to the A game. If you believe there is more than one weak shot, we begin with the “weakest” shot and make that better first.

For example, if you need accountability, put the in measure in place, if you run out of time, figure out time management. If you need help learning what to eat, there are several stored articles about the super foods on our website under newsletters. If you’re lazy, then you probably won’t even see this, because you stopped reading the article already.

Do you want to eat well but there is no place to purchase healthy pre-packaged foods? PLEASE email me about this. Who knows, maybe there could be a store started to help out with this.

Try out our philosophy of weight loss, it does work. In the meantime, if you will provide feedback to us regarding what you need to help create a better life for yourself, within reason, possibly we can, as John Lennon said it, “with a little help from our friends.”

This is what we are truly committed to do, creating a better healthier, life for all of us.

This feedback is sort of a Santa’s wish list if you will. What do you need to create a better life for yourself? What are you doing about it? How can we help? Please email us with your feedback.

Happy New Year!
